

X10D Attachments

An open modular platform.

Skydio X10D's modular design allows you to quickly attach mission-specific accessories, expanding its capabilities on the fly. Whether you need to enhance communication using the Speaker and Microphone attachment, illuminate dark environments with the Spotlight, or ensure safety with the AVSS Parachute Recovery System, X10D's adaptability empowers you to tailor your drone for any mission.

Spotlight

Provides enough illumination to identify a person hundreds of feet away in low/no light environments.

Weight: 115g

Speaker and Microphone

Enables two-way communication between drone and ground. Volume control allows clear audio across distances.

Weight: 100g

Skydio NightSense

Autonomously fly missions in total darkness using visible or infrared illumination.

Weight: 57g

AVSS Parachute

Provides an integrated parachute recovery system that autonomously terminates flight if issues arise. Mitigates risk of injury to people on the ground.

Weight: 230g

*All attachments sold separately.
